

AL-KHERBET COMPANY

Contracts, Trading & General Transport Ltd.

Introduction:

AL-KHERBET COMPANY for Contracts, Trading & General Transport Ltd. was established in 1963, in Baghdad, by Abdulhamid, Ajeel and Abdulkareem Al-Kherbet. The company received the class A contractor's classification in the Ministry of public works.

In 1973, Mr. Ajeel Dyab Al-Kherbet bought out his partners and became the sole owner of the company. He then renamed it into:

AJEEL DYAB AL-KHERBET COMPANY FOR CONTRACTING.

The company has since developed into a reputed professional enterprise that earned the respect and trust of the Iraqi ministries, government agencies and civilians.

In 2003, the Company merged with Al-Shaalan of Jordan, under the new trade names of ALTAYF AL-ABIAD ENTERPRISE ENGINEERING AND CONSTRUCTOIN Division and ALTAYF AL-ABIAD ENTERPRISE TRADING AND CONTRACTING Division .

Al-Kherbet Company has a talented and dedicated staff that takes pride in their work while utilizing the latest construction technologies. Good organization, a perfect quality control plan, accurate time schedules are some of main principles we adhere to in an effort to obtain the lasting client satisfaction on which we've built our reputation. Throughout our history, we have developed a portfolio of satisfied government; local and International clients recognize and depend on the quality of our services. Successful cooperation with many local and International partners, always on time and within budget, has resulted in winning performance of highly valued services and vital projects still standing as a model of high quality.

High technology, modern equipment and material base are consistently brought to bear by our dedicated senior staff; the majorities are highly educated and skilled engineers, design specialists, surveyors, and supervisors for several varying types of construction and electromechanical works. The senior staff includes highly experienced and educated architects, surveyors, mechanical, electrical and many other specialties engineers.

Al-Kherbet Company

Contracts, Trading & General Transport Ltd.

Project name: Omar Bin Abdul-Aziz Bridge on Warrar River in Ramadi.

Client: CAPE Environmental

POC: James Stewart Tel: +1732 610 9692, E-mail: jstewart@cape-inc.com

Project description summary: Surveying, engineering and construction of 220 m.l. concrete bridge on Warrar River in the centre of Ramadi, 80 kilometres west of Baghdad. The bridge contains 9 concrete pre-stressed girders measuring 24 meters each. The Consulting Bureau of the University of Baghdad and of the University of Ramadi performed the quality control functions while the National State laboratory was responsible for all field and laboratory tests.

Staff Details: Site office fully equipped and functioned with highly experienced engineers and technicians to managing the site's activities was established. Abroad of Iraq offices supported the project by purchasing and importing the required and needed equipment, Baghdad HQ supported administrative and correspondence functions. The site staffs were mainly from the local area to encourage the employment in the post conflict and war affected area. A total of 18 engineers, 45 technicians and 10 administrators' personnel covered the project activities. The project has totally completed within the planned time, finally handed over, entirely disbursed within the allocated budget and closed in the due time.

Starting Date: November 2005

Completion Date: December 2006

Address: Iraq-Baghdad/Al-Jaderya (Dis.915, St.31, Bldg.25)
